

THE CORNER

SMALL SPACE SOLUTION

THE CORNER

This system provides space-constrained facilities with the functionality of a much larger structure, but in a space efficient configuration that works well in a corner today, or can be easily expanded or reconfigured in the future. It can accommodate up to 4 exercisers at a time for partner or individual training.

Thoughtful storage located right on the structure is both intuitive and flexible to encourage fast and easy stowing of training accessories to keep floor space clean and clear.

*Training accessories sold separately.
